

ROSAZEL

ROSACEA, COUPEROSE

IN
PROGRESS

MEDICAL DEVICES

DESCRIPTION

Rosazel is able to perform a **filmogenic effect** on the interested area **guaranteeing protection and, at the same time, reducing redness, blemishes and pain.** It soothes skin flare ups and reinforce the epidermal barrier.

Indicated as a **daily treatment of rosacea and couperose disorders.**

REGULATORY STATUS

It complies with the essential requirements in the Annex I of directive 93/42/EEC modified by the 2007/47/EC directive.

It is to be considered as belonging to the Class IIA (Marking in progress).

INDICATION

- It **alleviates the signs and symptoms of rosacea** and others inflammatory dermatosis, such as redness, erythema, itching and burning.
- It fosters a faster normalization of overactive epidermis offering a immediate skin comfort.
- It helps to **give relief to dry skin** ensuring a **good hydration** and thus **promoting the skin regeneration** process.
- It also **protects from sunlight, external agents** and **sudden changes in temperature.**

CLAIMS

- Erythema reduction
- Flushing, burning, stinging reduction
- Hydration and protection
- Skin tolerability
- Effective in 28 days
- Free from preservatives , Fragrance, PEG, Silicones.

INGREDIENTS

- **AZELOGLICINA®:** a combination between azelaic acid and glycine with soothing and moisturizing effect.
- **Hyaluronic Acid:** a naturally-occurring polysaccharide that provides skin moisture and firmness.
- **Vit. E:** a free radical scavenger, a powerful anti oxidant vitamin with protective properties on the skin
- **Solar Filters (SPF 30):** to protect skin from UV-A and UV-B rays.

CLINICAL TESTS

Clinical evaluation on 42 patients affected by Rosacea for 28 days, applied twice a day. Rosazel showed:

- an **improved stratum corneum hydration** effect on all facial sites,
- an **excellent profile in terms of local tolerance,**
- **facial erythema disappearing in 95% of patients.**

ASPECT

Emulsion, packed in 50 ml Tube.

APPLICATION

To be applied twice a day on the interested areas of the face and massage lightly. Use for 28 days.
